Commentary

Convenient Capital is a Global Origination Platform for quality Trade Receivables. We operate Globally. Not only in Central Asia/Uzbekistan. We want to brief you on Uzbekistan because it is very much an up and coming and dynamic country now since the new President (Mr. Shavkat Mirziyoyev) came to power in 2016. We have just opened one our first office there which currently has two staff - Country Managing Director Dr. Akmaljon Odilov and Karina Zafarova.

We will have focused reports on many other countries in due course as we are a Global business. We hope it will help our funders and investors. We put our quality stamp on all assets offered; they provide a higher-than-average return (uncorrelated and self-liquidating) given the country is not known so well and it requires much more working capital. Convenient Capital is "first mover" in Trade Receivables Origination in Uzbekistan. Such wonderful opportunities exist for Investors/Funders. Please allow us to "hold your hand" and direct you to safe investments that we have fully approved, seen, and carried out full Due Diligence, anti-fraud, and AML.

The Chief Executive Officer of Convenient Capital (part of UK Holding company), Barry Rogers, has wide experience in Central Asia and former Soviet States and lived in the region and Russian between 2004 - 2015.

Barry has many contacts throughout Uzbekistan is known personally by Government Ministers and Regional Governors - not to mention top businessman and women and Chambers of Commerce and Banks. Barry is an experienced Credit & Risk professional with three professional qualifications in Trade Finance, SCF and Trade Receivables financing, including Institute of Credit Management in UK of which he is Committee Member.

In late 2021 we set up our Uzbekistan company where we have small offices and staff - professional persons. These carry out pre-lend Due Diligence on borrowers and we support funders from outside the region on any matters when they require assistance with borrowers and new business. We are at the service of our Funders without which we will not grow our business.

As I say, we carry out comprehensive Due Diligence on all Trade Receivables assets that we bring to our Investors/Funders - to match their appetite. We carry out DD, AML, KYC, KYB, Anti-Fraud and no funding is offered without our credit committee fully approving each Seller or, in the case of Payables facilities, the Buyer.

- We are ready to work with all funders you can lend in US\$ or € Euro without local currency risk.
- You buy the assets direct from Seller we never own the assets, and you never pay us. We can manage your investments though as a Servicer if required.
- We do NOT provide Credit Insurance as we do not have a financial interest/own the Trade Receivables assets. You or the Seller should provide Credit Insurance if needed.
- You may take some confidence in our proven experience and integrity of our team in Trade Receivables. Barry Rogers has over 45 years in Trade Receivables including setting up Russia largest independent factoring company Life Factoring (see also www.abladvisory.co.uk) and advising the set-up of Turkeys largest factoring company TAM Factoring, amongst several others.
